

Brilliant UV Stable Dyes

Pellucid Dye for modern concrete flooring won't burn out, or fade away.

Offered in a brilliant array of colors, Pellucid Dyes are high-strength concentrates that require dilution with acetone or another similar solvent. Unlike paint, these dyes will not chip, crack or peel. Choose from any of the 25 standard colors or mix them to achieve an infinite color palette.

Application is easy. Simply apply Pellucid Dyes with a solvent-resistant sprayer on interior and exterior concrete surfaces.

Pellucid

Water-based Stain for Concrete Surfaces

düraamen
engineered to perform
